

Ride Leader Checklist

Pre-ride the route when possible and plan any needed fuel or meal stops.

On the day of your ride:

1. Make sure all riders are on the signup sheet and get waivers signed for non members and minors.
2. Call a ride meeting.
3. Identify any mid point ride leader, your sweep rider and any other road captains.
4. Discuss the route, rest & meal stops/fuel stops.
(Provide copies of the route to key individuals when possible.)
5. Follow your lead rider unless it is unsafe to do so. (If the lead rider makes a wrong turn it is safer to keep the group together).
6. If the group is making a turn and you can not see the rider behind you it is your job to stop in a safe place at the turn so the following riders can see you in time to make the turn.
7. Review the staggered riding formation.
8. Make sure everyone understands that although it is a group ride, safety is a personal responsibility.
7. Review alcohol policy.

Note:

Sign up sheets & waivers are stored behind the dealership in a plastic tote underneath the bench.
